Pray that the orders directing the transfer of the dispensary at Hariharpur to Balur may be cancelled for reasons stated therein

On the representation of the District Board the dispensary at Hariharpur was ordered to be transferred to Balur though the Senior Surgeon was not in favor of such a transfer but advocated the establishment of a separate dispensary at Balur the reason being that the extra cost could not be borne either from the District Funds or Provincial Funds.

(Vide G.O. N^o 3798-9/LB 417-05 dated 9 Nov 1906)

Subsequently on the representation of the Senior Surgeon to the effect that the dispensary at Hariharpur could not be immediately removed to Balur for want of suitable buildings at the latter place it has been directed that the order of 9th Nov 1906 should be held in abeyance till

Suitable buildings are provided for at Balur, so that there is no probability of the dispensary at Hariharpur being removed in the near future. But the people of Hariharpur dread the consequences of the removal of the dispensary even after some time and clamor.

With reference to Government Order
No 4706/L.B. 148-08-5 dated 18th November 1908
forwarding for my disposal or report, certain
petitions re the transfer of the dispensary,
at Hariharpur, I have the honor to state
that in consideration of Babur being about
14 miles from the nearest dispensary (at Abudiger)
while Hariharpur is only about 9 miles from
the Koppa dispensary, and of the fact that the
need for a dispensary was very keenly felt
at the former place, the District Board recommended
transfer of the Hariharpur dispensary

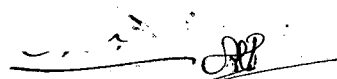

P. to Bahur and this was sanctioned by Government in their Proceedings No. 3798-9/K.B.417-05-8 dated 9th 10-1-71. Transfer was, however not given effect to up to now owing to the absence of a suitable building at Bahur. Recently, one Kalasegowda having offered to place a building of his, constructed at a cost of about Rs. 3000/- at the disposal of the Government for the purpose of the dispensary as reference has been made to the Senior Surgeon in the matter of the early transfer of the dispensary to Bahur. A copy of the letter addressed to the Senior Surgeon is herewith submitted for reference.

Adverting to^d your docket no. 1666 of the 29th September 1908 calling for my opinion as to the building which the District Medical and Sanitary Officer, Kadur District, has referred to for the location of the Dispensary at Bahur, I have the honor to forward herewith in original Muddige Amildar's report No 81 of the 31st October 1908 wherein it is stated that the building would do very well for the proposed Hospital and that it would be of immense help to the people if the dispensary be located at Bahur. It will be seen from the Musthalika enclosed in the Amildar's report, that the building has been built at a cost of

nearly Rs 3000/- and that the owner is prepared to hand it over to Government on condition that it is to be used only for the purpose of locating the Hospital. that after 10 years he should be paid a rent of Rs. 5/- a month for the building and that all repairs - required for the building should be carried out by Government at their own cost.

2. I am of opinion that the conditions expressed in the musthabika are fair and may be accepted and that the Hospital may be ordered to be shifted to Bahur from Haridharpur.

Sir,

With regard to the proposals some time now before Government to shift the Dispensary at this station (Hariharpur) to Balur, I have the honor to say that the enquiries I have been able to make on the spot more than confirm me in my objection to these proposals. I have read the various opinions of officers entered in the Hospital books for years back and with one exception who was a District Surgeon, these opinions are strongly in favour of retaining the Dispensary at Hariharpur. Even this single objection ultimately left a note entirely in favour of leaving the Dispensary undisturbed.

2 The sole argument in favour of shifting the Dispensary is based on its proximity to Koppa. Well any one who has negotiated the Ghat between this & Koppa even in weather such as we are having now will place small value in this as a plea for doing away with a Dispensary. But what must be the state of affairs in the rains? The Ghat must be then practically impossible, at any rate for a sick per-

person climbing it to get to Koppa from here. The proposal therefore to do away with the Dispensary on the mere ground of proximity to Koppa may therefore be at once dismissed.

3. But that the Dispensary supplies a very real need seems evident from the list of villages dependent on it for medical relief, which the inhabitants presented to me to day and which I now enclose herewith for the information of Government. From this it is seen that 10,000 persons are concerned.

4. And that the people appreciate this Institution was only too evident to me to-day as they came in crowds clamouring for its retention. No one who witnessed their importunity could fail to be left under the impression that these isolated people were very sincere and that to deny them their desire would be impossible.

5. The 'fever' rate here is high but has not yet been worked out. This will now be done. But some idea may be conveyed by the fact that about half the new cases (about 25) ^{treated} at the Dispensary daily is due to ague - taking one month with another. This shows a very heavy incidence of Malaria in these parts. The Post Office might do more I think in the way of selling quinine, and I have indicated to the Post Master how his sales may be improved. So quiet has he kept the fact of his having quinine for sale that not even the Hospital Assistant who has been here about 9 months was aware of it!

6. The surface drainage is of the worst description. It would be so much better if the existing "drains" were done away with altogether, and the surface just kept properly levelled so that rain could run off easily. The fall is excellent. I have rubbed this into the local authority with

with what zeal I could work up for the occasion, and have received assurances of the most comforting kind for well-doing in the future.

7. The people seem to have a strong objection to vaccination, but I think they have now relaxed a little, & cannot well go back on their promises to have a general vaccination campaign at the approach of the warm weather. The Hospital Assistant is to set about preparing his lists at once at the same time that he is working out the malarial index of the village, and I shall be greatly disappointed and surprised if I do not hear of good results by April next.

I have the honor to be,

Sir,

Your most obedient servant,

B.G
